3. The Senior Engineer reports in reply, that he inspected the monument in question and sees no reason on sanitary grounds why it should not be used as a bathing ghat, the only possible objection, which is not a sanitary one, being that it is deep and can only be used by persons who can swim.

4. As regards paving the channel leading to gakkharayankere with rough stones, ^{it may be observed that} ~~the Chief Engineer may be requested to put in hand the work at once.~~ A provision of Rs 20,000/- exists in the current year's Civil Budget under the Head "Misc: Bangalore City Improvement."
